Tyvek®

What is DuPont Tyvek® ?

Tyvek® is DuPont's trademark for a family of tough, durable sheet products that are stronger than paper and less expensive and more versatile than fabrics. Made from high density polyethylene fibers, Tyvek® is an extremely versatile material, offering a balance of physical characteristics that combine some of the properties of film, paper and cloth.

DuPont Tyvek® is strong, lightweight, flexible, smooth, low linting, opaque and resistant to water, chemicals, abrasion and aging. Its unique combination of properties makes Tyvek® ideal for a broad range of applications from protective apparel, envelopes, sterile packaging, signs and banners, tags to energy saving housewrap.

DuPont Tyvek®; can be recycled and DuPont has been recycling Tyvek® for the past 20 years. Tyvek® is 100% high density polyethylene (HDPE) and therefore readily recycled with HDPE waste streams.
